Joan E. Denton Ph.D., Director  
P.O. Box 4010  
Sacramento, CA 95812-4010

Dear Joan,

I have enjoyed my service to California as a member of the Proposition 65 Carcinogen Identification Committee. As you know, I ~~am~~ the lone remaining original member of the committee that was, I believe, mandated by proposition in 1987. That would make it a tenure of 20 years and as I am going to be 65 years old this year, I believe it would be a most propitious time for me to tender my resignation.

I regret this resignation, but I feel it is important for the committee to maintain a **fresh** and diverse perspective. I am sure it will continue to operate effectively in my absence. I would, however, encourage you to retain a committee member with a background in toxicologic pathology, so that particular perspective might be expressed in the decisions of the panel.

Again, it has been a pleasure working with you, all the excellent staff of OEHHA and the current and past members of the committee.

Sincerely

Bill Spangler
